# About *Mitra Eco Exports*

Incorporated in **January 2026** and headquartered in **Bengaluru, Karnataka**, Mitra Eco Exports LLP is a government-registered merchant exporter specialising in premium natural fertilizers. We source directly from verified producers across **Karnataka and Tamil Nadu**, lab-test every batch, and handle complete export documentation — bridging India's rich agricultural heritage with international demand across Gulf urban farms, African cooperatives and developed markets worldwide.

<b>04</b> CORE PRODUCTS	<b>20+</b> TARGET MARKETS	<b>100%</b> NATURAL & PURE	<b>NABL</b> LAB-TESTED BATCHES
----------------------------	------------------------------	-------------------------------	-----------------------------------

## Why Partner With Us

<b>🔍 Lab-Tested Every Batch</b> Every shipment is tested at NABL-accredited laboratories for NPK values, moisture, heavy metals and microbial load before export.	<b>📄 Full Export Documentation</b> We manage all paperwork — RCMC documentation, phytosanitary certificate, Certificate of Origin, commercial invoice and packing lists.
<b>🏠 Private Label Option</b> Sell under your own brand. We offer white-label packaging so importers can market our products under their own name.	<b>🚀 Start Small, Scale Fast</b> Begin with a 2-5 MT trial shipment (LCL) before committing to full containers. We actively welcome new importers.

# Natural & Pure *Fertilizers*

Four core soil inputs, each sourced from verified producers and lab-tested for NPK values, moisture content and compliance before export. Available in 25 kg and 50 kg bags, bulk, and custom private-label packaging.

<p><b>01</b> BESTSELLER</p> <p>FINE POWDER</p>	<h2>Cow Dung Powder</h2> <p>Sun-dried, finely powdered cow dung. Rich in nitrogen, phosphorus and beneficial microorganisms. A versatile, all-purpose soil input ideal for every soil type.</p> <p>High N-P-K    Low Moisture    Microbe-Rich</p> <p><b>PACKAGING</b> 25 kg / 50 kg bags · bulk</p> <p><b>BEST FOR</b> All soil types · field &amp; potting</p>
<p><b>02</b> PREMIUM</p> <p>GRANULAR CAST</p>	<h2>Vermicompost</h2> <p>Earthworm-processed natural matter with exceptional nutrient density, superior water retention and high microbial activity — the premium choice for high-value horticulture.</p> <p>Microbe-Rich    pH Balanced    High Retention</p> <p><b>PACKAGING</b> 25 kg / 50 kg bags · bulk</p> <p><b>BEST FOR</b> Horticulture · nurseries · floriculture</p>

03

POPULAR

COMPOSTED

## Natural Compost

Composted farm waste and plant material that improves soil structure, drainage and long-term fertility – a sustainable foundation input for healthier, more productive land.

Humus-Rich

Odour-Free

Soil Conditioner

**PACKAGING**

Bulk · 25 kg / 50 kg bags

**BEST FOR**

Soil structure · sustainable farming

04

VERSATILE

BLENDED

## Natural Manure

Blended farmyard and plant-source natural manure. A cost-effective, all-crop soil amendment built for both large-scale commercial operations and smallholder farms.

All Crops

Economical

Balanced Feed

**PACKAGING**

25 kg / 50 kg bags · bulk

**BEST FOR**

Large-scale & smallholder farms

## Quality Assurance

Every batch is independently tested at **NABL-accredited laboratories** for NPK values, moisture content, heavy metals and microbial load prior to dispatch. Products are processed, dried and screened to consistent grade, and each consignment ships with a complete set of export and quality documentation.

# Specifications & Packaging

PRODUCT	FORM	KEY PROPERTIES	PACKAGING
Cow Dung Powder	Fine, sun-dried powder	High N-P-K, low moisture, microbe-rich	25 kg / 50 kg bags; bulk; private label
Vermicompost	Granular earthworm cast	Microbe-rich, pH balanced, high water retention	25 kg / 50 kg bags; bulk; private label
Natural Compost	Composted plant matter	Humus-rich, odour-free, soil conditioner	Bulk; 25 kg / 50 kg bags; private label
Natural Manure	Blended farmyard & plant	All-crop, balanced, economical	25 kg / 50 kg bags; bulk; private label

## Packaging Options

- Standard 25 kg and 50 kg woven PP bags
- Bulk / loose supply for full-container loads
- Custom & private-label (white-label) packaging
- Buyer-specified bag printing & branding available

## Testing & Compliance

- NABL-accredited lab testing on every batch
- NPK, moisture, heavy metals & microbial load
- Phytosanitary certificate on export
- Certificate of Origin & full export documents

## Container Loading (Indicative)

<b>Trial (LCL)</b>	From 2–5 metric tonnes
<b>20 ft FCL</b>	Approx. 18 metric tonnes
<b>40 ft FCL</b>	Approx. 26 metric tonnes

## Note on Specifications

Exact NPK values and parameters vary by batch and source and are confirmed on the test report accompanying each consignment. Custom grades and blends can be discussed for specific crop or regulatory requirements.

# Pricing, Samples & Shipping

## 🔗 Pricing on Request

We quote each enquiry individually. Pricing is not fixed because it depends on several factors — the product and grade, order quantity, packaging requirements, destination port, and the chosen Incoterms (CIF or FOB). Share your product, quantity and destination, and we will return a tailored quotation. **Volume discounts are available** for larger and recurring orders.

### FREE SAMPLE POLICY

## Try Before You Commit

- ✓ Free samples are **available to serious buyers** on request.
- ✓ Sample quantity is provided **up to a maximum of 1 kg per product**.
- ✓ **Courier / shipping charges for samples are borne by the customer only.**
- ✓ Samples let you verify quality, grade and consistency before placing a trial order.

## Shipping

Port	Chennai (nearest major seaport)
To Dubai (UAE)	8–12 days transit
To Mombasa (Kenya)	10–16 days transit
To USA / Australia	18–28 days transit
Modes	FCL & LCL (shared container)
Terms	CIF & FOB offered
Insurance	Marine cargo insurance provided

## Documentation

Each consignment ships with complete export paperwork: RCMC documentation, phytosanitary certificate, Certificate of Origin, commercial invoice, packing list and the batch test report.
